-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Eyraier (5,722,685).

Eyraier discloses an airbag apparatus comprising an airbag having an occupant-side-surface facing the occupant and a vehicle-body-side surface opposite to the occupant-side surface when the airbag is inflated, and an upper chamber 28 and a lower chamber 26 separated from each other; a gas generator 12; a communicating portion between the upper and lower chambers; and a check valve 24. Eyraier teaches the occupant-side-surface and the vehicle-body-side surface are joined at peripheries thereof. Eyraier teaches a gas distributor formed of a sheet wrapping around the gas generator. As shown in figures 2 and 3, the gas distributor is formed of the sheet rolled in a cylindrical shape with edges overlapped and the gas generator is fixed with a mounting member passing through the edges. A bent unit 30 is formed in the upper chamber.

***Allowable Subject Matter***

3. Claims 8-13 are allowed.

***Response to Arguments***

4. Applicant's arguments filed June 16, 2005 have been fully considered but they are not persuasive. In response to the Applicant's argument that prior art U.S. Patent 5,722,685 to Eyraier dividing seam 24 does not constitute a check valve, by definition a check valve also means a lid, plug or cover. The term has several definitions, however the seam 24 of Eyraier functions as a "valve", that is preventing a flow.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
